HyGieaCare® Constipation & Bloating Relief

Once your appointment has been scheduled, arrive at the HyGieaCare® Center. Please register at the front desk and our trained nurse manager and Tech will greet you and lead you through the treatment.

Prior to your arrival, the HyGieaCare system will have been stringently disinfected. You will be taken into a private room where you will partially disrobe, sit comfortably on the basin, cover yourself with a blanket. The Tech will get back into the room and gently insert a lubricated small size disposable nozzle into the rectum.

A gentle stream of temperature controlled, gravity-flow water will loosen stool and induce bowel movements, allowing you to comfortably evacuate your colon discreetly and odorlessly providing relief of constipation and bloating.

What is Constipation & Bloating?

Constipation is generally described as having fewer than three bowel movements a week.

Bloating is swelling or increase in diameter of the abdominal area, feeling a full and tight abdomen, which may cause abdominal pain.

So what do you do when you just can't go?

The effective solution- GO with HyGieaCare Constipation & Bloating Relief.

Patients Feedback:

"Clear, simple, definitely recommend to others"

"Great process, I shall be back!"
