1

Once your appointment has been scheduled, arrive at the HyGieaCare® Center. Please register at the front desk and our trained nurse manager and Tech will greet you and lead you through the treatment.

2

Prior to your arrival, the HyGieaCare system will have been stringently disinfected. You will be taken into a private room where you will partially disrobe, sit comfortably on the basin, cover yourself with a blanket. The Tech will get back into the room and gently insert a lubricated small size disposable nozzle into the rectum.

3

A gentle stream of temperature controlled, gravity-flow water will loosen stool and induce bowel movements, allowing you to comfortably evacuate your colon discreetly and odorlessly providing relief of constipation and bloating.

HygiPrep Patient feedback:

LIKE  
WONDERFUL  
THANKS  
RELIEF CARE PROFESSIONAL AMAZING GOOD EXPERIENCE  
GREAT EXCELLENT  
FEEL BETTER LOVE RECOMMEND BEST  
WILL BE BACK EASY  
FRIENDLY COMFORTABLE HELPFUL
