hygieacare[®]
Delivering better GI outcomes

Perform HygiRelief[®] with the FDA cleared system and feel so much better

1

Once your appointment has been scheduled, arrive at the HyGIeaCare[®] Center. Please register at the front desk and our trained Nurse Manager and Tech will greet you and lead you through the treatment.

2

Prior to your arrival, the HyGIeaCare system will have been stringently disinfected. You will be taken into a private room where you will partially disrobe, sit comfortably on the basin, cover yourself with a blanket. The Tech will get back into the room and gently insert a lubricated small size disposable nozzle into the rectum.

3

A gentle stream of temperature controlled, gravity-flow water will loosen stool and induce bowel movements, allowing you to comfortably evacuate your colon discreetly and odorlessly providing relief of constipation and bloating.
